Observations:

From the queries above; Wyoming, Maine, South Dakota, North Dakota, Alaska, west Virginia, South Carolina, New Hampshire, Hawaii, Montana has least donation.
This occurs due to **population** of some of these states. States like; Wyoming, Maine, South Dakota, Alaska, New Hampshire, Montana, and North Dakota appeared to be among the 10 least populated states in the United States, also states like west Virginia, South Carolina who happens to be one of the poorest states in united states. Having these facts, **Population, Regional priorities and Economic Factors** such as unemployment rates or economic downturns, can impact people's ability to donate to charities. States with more economic challenges,lower population may have lower donation rates.

- People who donate above 200 are more than people who donate below 200.

- Majority of our Top donors are from the top states in USA.
- Human resources have more total donation than other work field while Business development has a greater number of donation than other work field; this is because human resources workers donate higher amount averagely than business development workers.

A. Recommendation on how to Increase the number of donors:

- **Social Media Presence** : Leverage the power of social media platforms to connect with a broader audience. Engage in conversations, share updates regularly, and utilize visual content to make your cause more appealing.

- **Events and Webinars**: Organize events, webinars, or virtual fundraisers to raise awareness about your cause and encourage donations. Such activities create opportunities for donors to connect emotionally with your mission.

- **Peer-to-peer Fundraising**: Encourage your current donors to become advocates for your organization by setting up peer-to-peer fundraising campaigns. This way, they can reach out to their networks and expanding your potential donor base.

- **Engaging Content Marketing**: Create and share valuable content that aligns with your organization's mission and attracts potential donors. Utilize blog posts, videos, infographics, and social media to engage your audience and encourage them to support your cause.

B. Recommendation on how to Increase the donation frequency of your donors:

- **Mobile-Friendly Donation Options:** With the increasing use of mobile devices, offer mobile-friendly donation options to make it convenient for donors to contribute from their smartphones or tablets from any location.

C. Recommendation on how to Increase the value of donations:

- **Educate Donors:** Inform donors about the impact of larger donations on the charity's mission. Provide success stories and concrete examples of how their increased contributions can make a significant difference in the lives of beneficiaries.develop personalized relationship with donors ,understanding their interest and motivations. Tailor your communication to demonstrate how their support aligns with their values and passions.

- **Stewardship and Impact Reports:** Regularly update donors on the outcomes of their donations. Provide impact reports and demonstrate how their contributions have been used to create positive change.

- **Encourage donor involvement:** Extend invitations to major donors to visit the charity home, meet the beneficiaries, and personally witness the profound impact of their contributions. This experience has the potential to foster a stronger emotional bond with the cause.

- **Expressing appreciation and Follow-Up:** Show sincere and prompt gratitude to major donors for their contributions. After they make significant donations, follow up with them to reaffirm the importance of their support.

- **Provide Donation Tiers:** Offer distinct giving levels with varying incentives and advantages for larger contributions. For example, extend exclusive event access or special recognition to donors who reach specific donation thresholds.
